

MURDER MYSTERY GAMES

(In no particular order)

Take on the role of an outrageously fun character who is a suspect in a murder investigation. You will need to use your wits and detective skills to catch the killer in your midst or try and get away with murder by framing other suspects.

All that is needed from you is a sense of humour! You and your fellow suspects will interrogate each other, taking note of any clues, motives or alibis revealed to the group in order for you to catch a murderer! Terribly fake International accents and over-actors are most welcome!

Difficulty rating:

Novice – Great games for first time players. Don't be fooled you will still need to put effort into solving our Novice games.

Tricky – I don't see it but previous players have consistently said these games were tricky to solve.

Advanced – Only recommended for players who have played with us before. Your guests will have to prepare for their roles as the devil is in the detail.
