

MURDER MYSTERY PRIVATE EVENTS

Celebrate life and dare to stray out of your comfort zone. Dress to kill, assume a new persona, solve a few mysteries, ensnare a devious killer or get away Scott free. Do all of the above while having a fantastic time making memories. Our Murder Mystery game events are perfect entertainment options for any birthday party, engagement, kitchen tea/bachelorette party or anniversary celebration.

How your game will work:

- Each table seats a minimum of **8** characters (unless otherwise indicated) - characters are usually equally divided between the genders.
- All of the guests are suspects in a terrible murder and one of them is the murderer.
- Each character receives his/her character description and story prior to the event, allowing ample time for 'getting into character.'
- At your mystery event, guests receive 3 sets of clues which guide them to the discovery of the murderer.
- Each guest will receive their character booklet containing a summary of their secrets,

motives and alibis along with the clue sets.

- Due to the number of twists and turns in each character's story and details, the game is never short of drama and fun.
- The game takes approximately 90-120 minutes to complete.
- At the end of the game guests at each table will make their arrest recommendations followed by the host revealing the murderer's identity.
- **Changes can be made to the above-mentioned format of the game depending on your requirements.**
