

Possible Crime Scene locations (Cape Town)

Any venue of your choice will do but we have a few suggestions when you choose one;

1. Enough seating for all your guests; if the game you chose is written for 8 characters each table should seat 8 guests comfortably.
2. Privacy; best not to sit amongst normal dinners if you plan to go to your favourite restaurant - rather use a private dining room if they have one available.
3. Enough lighting for suspects to be able to read their character details and examine the evidence.
4. If you plan to play at an outside venue its best to make sure that your guests will be out of direct sunlight, wind and rain for comfort.
